

K2 PRIME LLC

TEXAS PUBLIC-SECTOR CAPABILITY STATEMENT

Consulting • Coordination • Accountability • Execution

TEXAS HUB CERTIFIED
CMBL ACTIVE VENDOR

Texas Comptroller — Statewide HUB Program

Certified through 6 Nov 2028

WHO WE ARE

K2 Prime LLC is a Texas HUB-certified consulting and contracting company and an active CMBL vendor — not a trade shop. We define the requirement, source and qualify the contractors and suppliers capable of performing it, coordinate the work across them, and remain accountable from award through closeout: one responsible party instead of several disconnected vendors. State agencies and institutions of higher education receive HUB credit for payments made under our certificate number.

WHAT K2 PRIME PERFORMS

Delivered by K2 Prime personnel on every contract, regardless of which trades are assembled beneath them.

Consulting & Requirement Definition

Requirement analysis, scope development, site and schedule constraints, acceptance criteria, and honest assessment of fit.

Sourcing & Vendor Qualification

Verification of performers — trade licensing, insurance, safety record, capacity, past performance — under teaming agreements set before award.

Project Coordination & Execution

Sequencing and interface management, submittals, long-lead tracking, QA/QC, safety oversight, budget tracking, and a single Government point of contact.

Procurement & Logistics

Sourcing, expediting, freight, staging, and jobsite delivery carried through to requirement fulfillment.

SCOPES WE SOURCE & MANAGE

Performed by qualified partner contractors under K2 Prime coordination.

Mechanical & Industrial

Commercial HVAC maintenance and replacement • Chillers • Heat exchangers • Mechanical troubleshooting • Preventive maintenance planning • Millwright • Fabrication and welding • Conveyors • Equipment installation • Shutdown and outage support

Site, Civil & Structural

Site development • Grading • Trenching • Drainage • Underground utilities • Concrete • Roofing • Building envelope • Facility improvements • Fencing • Security gates and barriers • Right-of-way maintenance • Land clearing • Forestry mulching

Facility Support & Recurring Services

Scheduled and preventive maintenance • Recurring service programs • Grounds and vegetation management • Custodial and pest control support • Minor repair • Service-call response • Seasonal and periodic services

Supply & Support

Material and equipment sourcing • Vendor qualification • Expediting • Freight • Long-lead tracking • Staging and jobsite delivery • Agricultural technology and irrigation monitoring • Emergency and disaster response support

These are scopes K2 Prime assembles and manages — not a representation that K2 Prime self-performs licensed trade work, holds trade licenses, or owns the equipment involved.

REPRESENTATIVE LEADERSHIP EXPERIENCE

Oversight of more than \$55 million in industrial capital improvements and roughly \$12.5 million in shutdown execution — directing millwright, electrical, plumbing, roofing, structural, and concrete trades from plan review through scope, bid, schedule, and turnover.

Founder's experience prior to and outside K2 Prime LLC — key-personnel experience, not corporate past performance of K2 Prime LLC.

TEXAS PROCUREMENT CREDENTIALS

PURCHASING CATEGORIES

- HVAC & mechanical systems
- Millwright & fabrication
- Facility improvements & repair
- Roofing & building envelope
- Site preparation & civil
- Fencing & security gates
- Landscaping & land management
- Recurring facility support
- Logistics & equipment transport
- Emergency & disaster response

NIGP commodity and service codes maintained through the active CMBL vendor profile.

DIFFERENTIATORS

- HUB certified and CMBL listed — payments under our VID count toward agency and university HUB goals.
- One accountable point of responsibility from planning through closeout.
- Partners screened on licensing, insurance, safety record, and capacity before award — not after it.
- Leadership formed in Naval Special Warfare and industrial capital project management.
- Procurement literacy from both sides — requirements written and solicitations issued during 21 years of Government service.
- Texas Panhandle based and regionally responsive, with mobilization scaled to scope.

RECURRING FACILITY SUPPORT

Prepared to perform as the accountable contractor on recurring facility support requirements for agencies, universities, districts, and municipalities — consolidated under a single point of responsibility, with scheduled work, defined response times, and records structured to support contract administration and inspection.
